

Welcome to First Grade,

To help students retain their knowledge and skills over the summer I have put together a packet of summer homework.

Each student will be responsible to complete:

- Summer Reading Journal-instructions can be found on the inside of the cover.
- Math Packet-there is one double sided page for each week of summer.
- The Library Summer Reading Program-you will need to take your child to the library and sign up in the children's section.

The journal, math packet, and library reading log can be turned in at registration, back to school night, or the first day of school and will be graded. All students who complete summer homework will attend a party to celebrate their hard work.

Thank you for all you do!

Sincerely,

Sarah Koonce

# My Summer Journal

## Summer Writing Journal

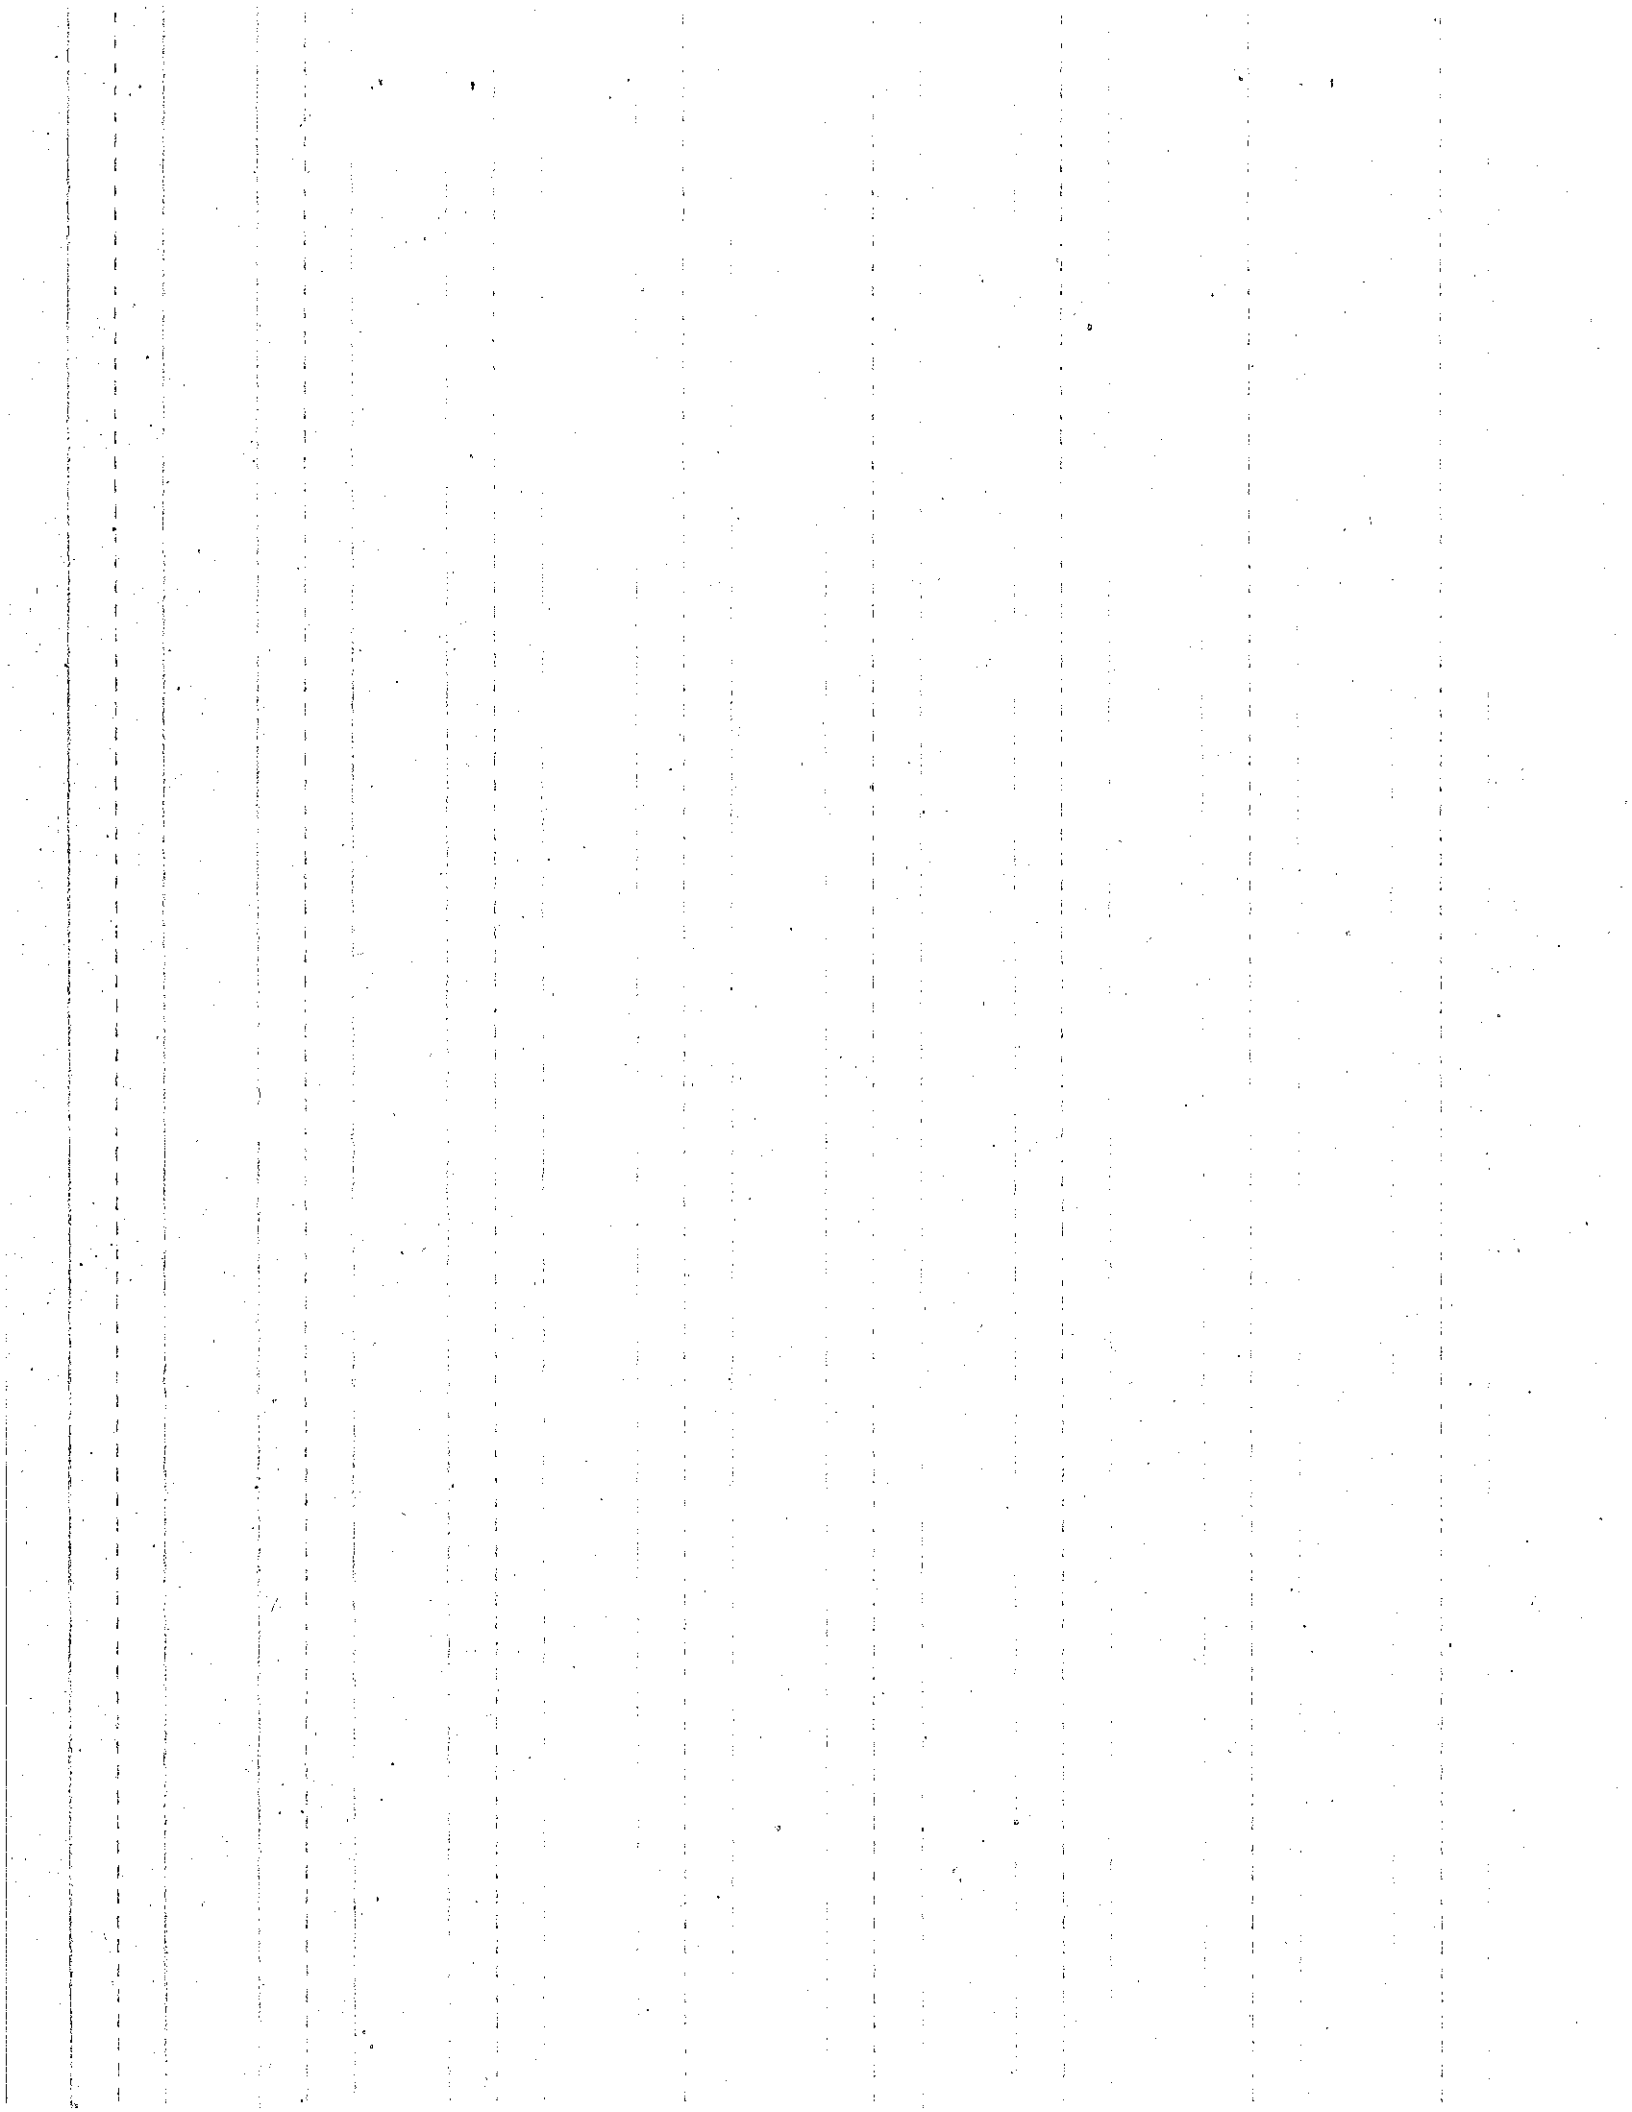

Please have your students practice writing in this journal throughout the summer.

The purpose of this journal is to:

- practice handwriting on the lines
- write in complete sentences
- use capital letters to begin sentences
- use correct punctuation to end sentences

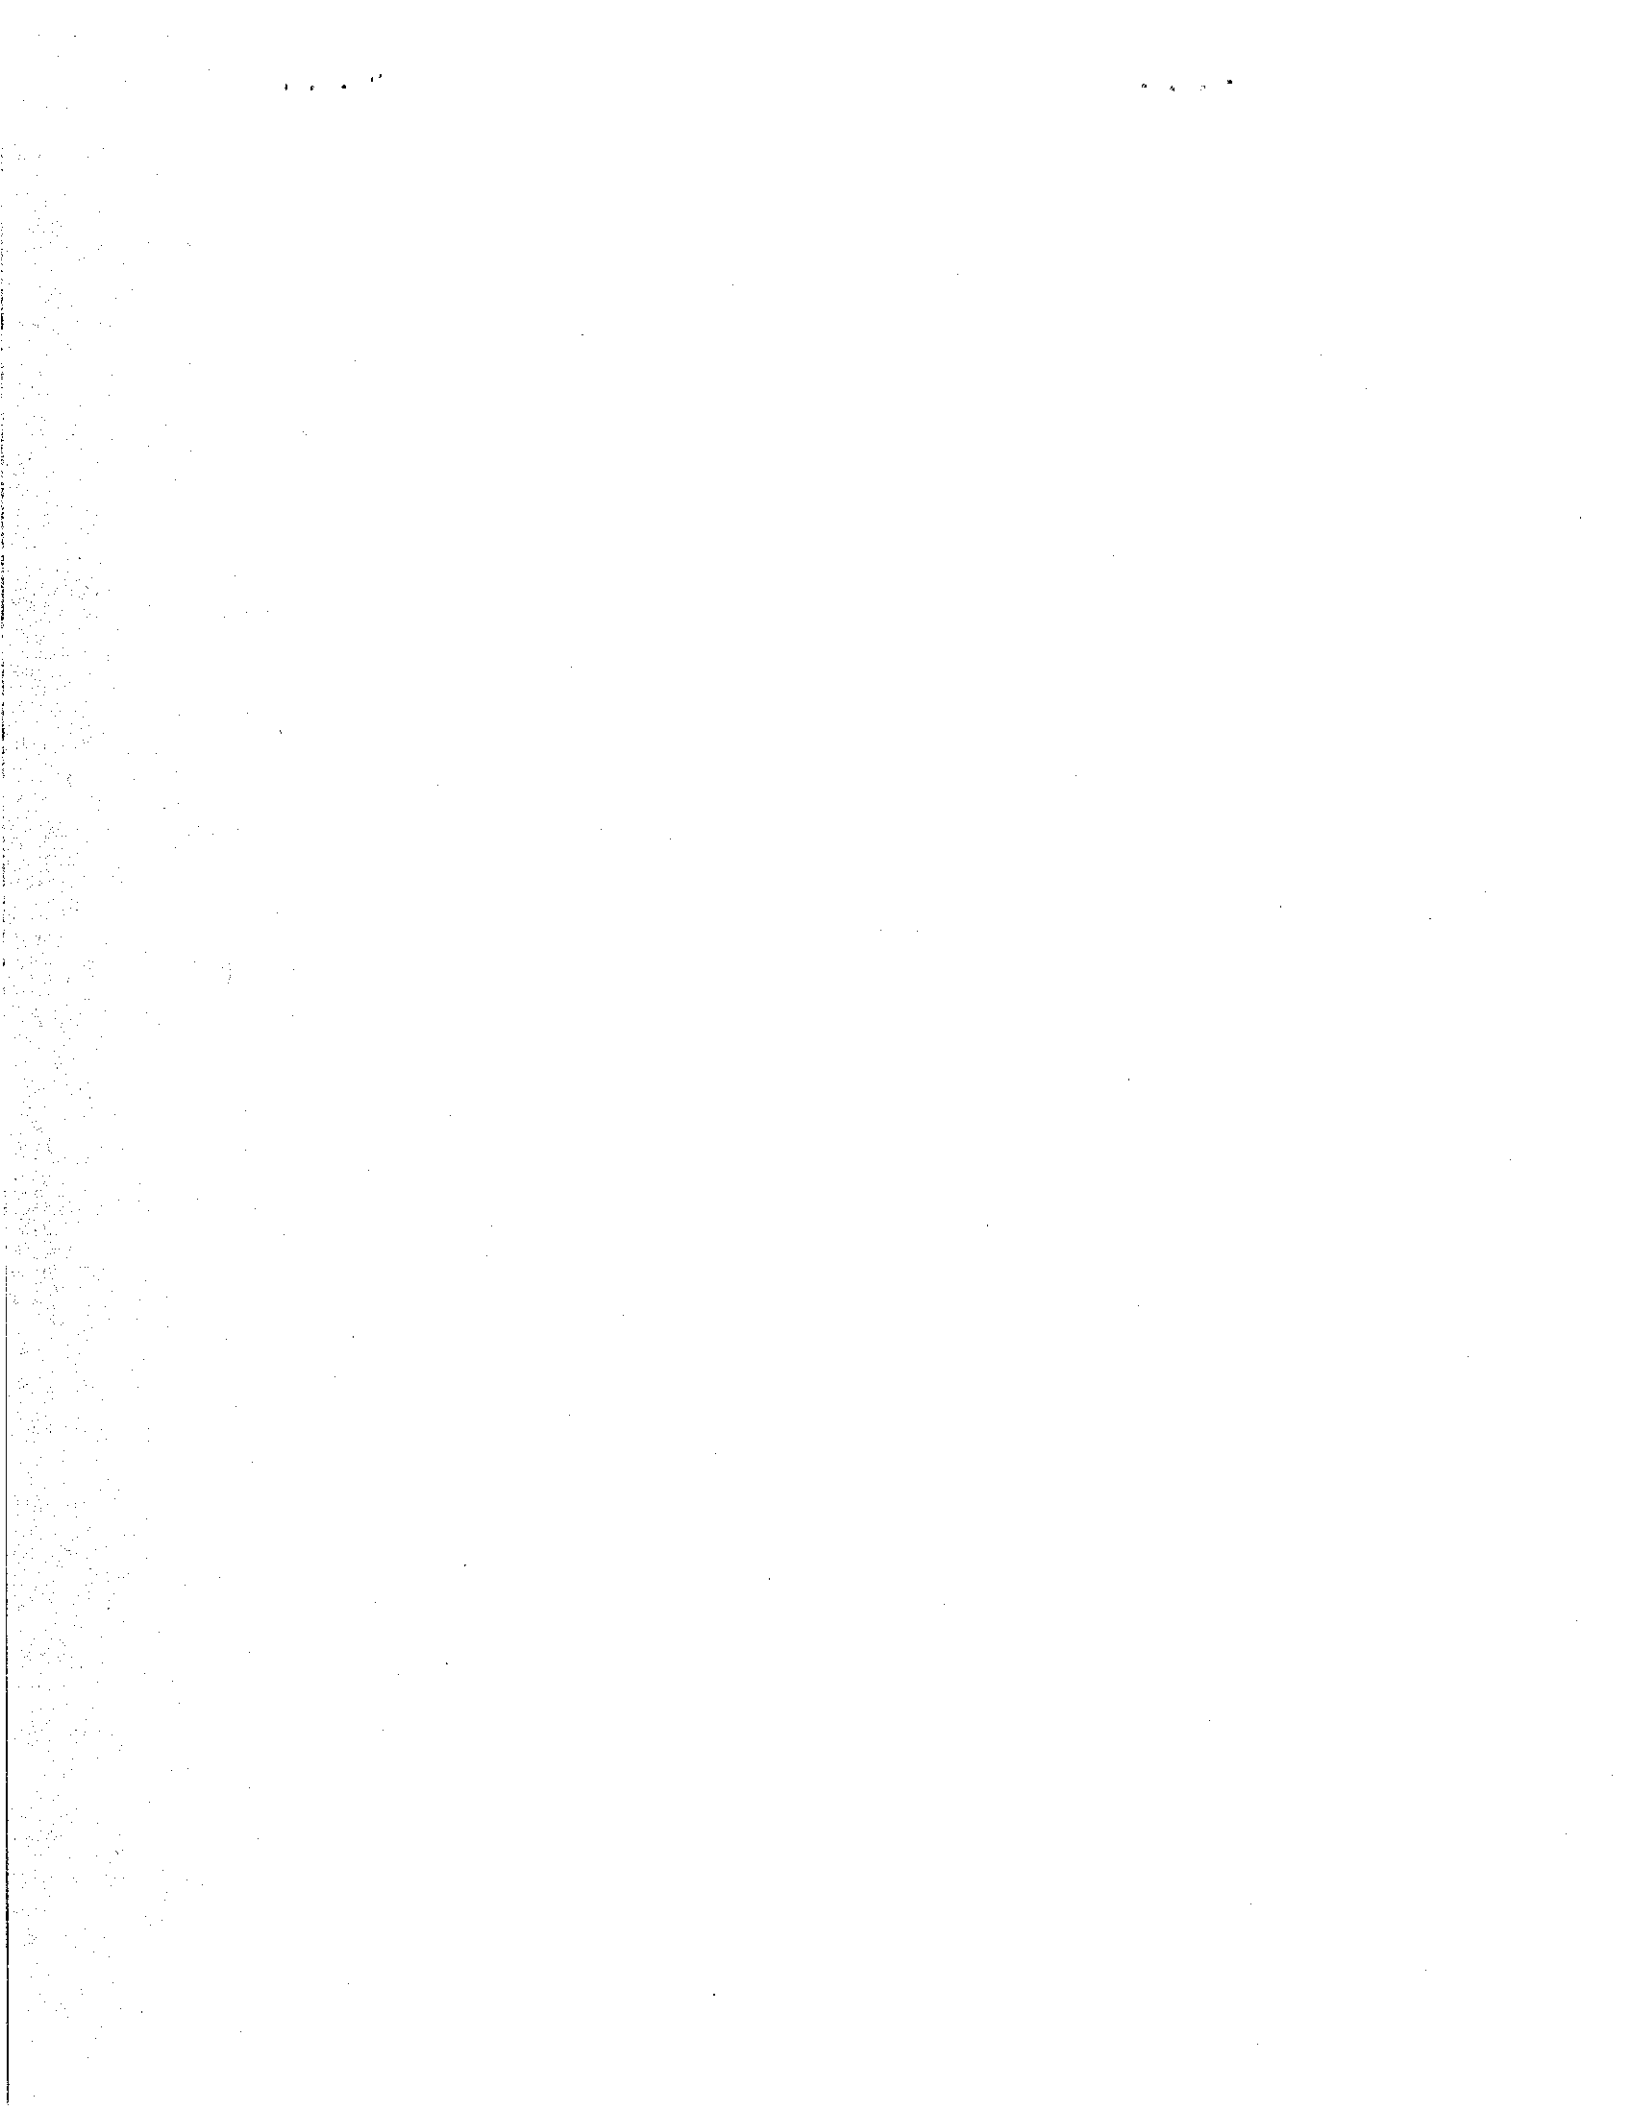

Students should write their name on the front cover. They are welcome to illustrate the front and back cover. The students may write about anything that interests them such as books they read, vacations, trips to the park, etc.

**Be creative and have fun!**
